Dear Parents,

**Re: Revised Acorn Pricing Structure – May 2026**

We are writing to inform you that we have reviewed our nursery and wraparound care pricing for 2026 in line with our terms and conditions.

We understand that rising costs are affecting many families, and any increase in fees is never a decision we take lightly. Like many childcare providers, we also continue to face increasing operational costs, including significant rises to the National Living Wage and other essential running expenses. To maintain the quality of care and provision that we pride ourselves on, it has become necessary for us to review our fees.

We have kept these increases to the absolute minimum possible and remain confident that our prices continue to be competitive when compared with other local providers.

Please see the tables below for the updated pricing.

**Nursery Fees**

The revised nursery fees will take effect from 1 May 2026 and will appear on your invoice according to your usual billing schedule.

**Wraparound Care Fees**

The revised wraparound care fees will also take effect from 1 May 2026. As wraparound care is invoiced in arrears, the new charges will be reflected on invoices issued from 1 June 2026.

**Holiday Club Pricing and New Offers**

We are pleased to confirm that holiday club prices will not increase.

Following valuable feedback from parents, we have also made improvements to our holiday club offer. We have introduced more flexible session options to better support families who may not require a full day of care, as well as a new block booking discount to help families save when booking multiple days.

---

As school holiday periods vary in length, the block booking discount will differ depending on the number of days available within that holiday week. Full details of any discounts available will therefore be clearly outlined on the holiday booking forms.

We appreciate your continued support and understanding, and we thank you for allowing us to care for your children.

Kind regards,  
Acorn Nursery
