Superhero dress up day

The children are invited to dress up as a superhero for the introduction of our topic on Monday 17th September.

Getting to know you

During the first two weeks of term we will be having lots of fun getting to know our new teachers and classrooms and learning even more about our wonderful classmates!

We will be working together as a team to create rules for our classrooms and even telling our teachers what our own 'perfect teacher' should be like!

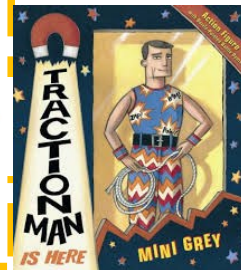

To become even stronger as a team we will be completing a range of exciting engineering challenges together from building boats to designing towers and bridges, hopefully they all stay standing!

Science

Our Science focus this term is Everyday Materials. We will be carrying out experiments to compare materials, and we will be discovering what makes a good scientist!

History

As the text is about a toy, we are going to explore old and new toys. We have hired some old toys from Peterborough museum and we will be researching them, writing about them and drawing them too!

Sport This term the main sport focuses will be Netball and multi-skills..

Traction Man

We are so excited to start reading our new Power of Reading text this term: Traction Man!

Children will be producing some fabulous writing such as stories, non fiction writing and designing persuasive posters.

Art

This term we will be investigating Famous Lines and Puppets. The children will be using a variety of mark making mediums to explore lines and as part of their Toys theme we will be making puppets.

ICT Over the course of this term, the children will be learning how to use the internet safely. We will be having a one hour session each week on E-safety.
